GENERAL ANNOUNCEMENT

1947 SUMMER COURSES

ONTARIO

ONTARIO DEPARTMENT OF EDUCATION

FOREWORD FROM THE MINISTER

The restoration in 1946 of a full programme of summer courses, following the restricted facilities for this type of training during the war years, was evidently welcomed by the teachers of Ontario. The large enrolments, the energy with which the work of the courses was attacked, and the record of successes achieved, show clearly that the importance of this type of special training and the advantages to be gained by attendance at a summer school are widely recognized by the teaching profession.

Summer courses are being offered again in 1947 in a wide variety of subjects so that teachers may improve their professional standing and prepare themselves for more useful service or for enlarged responsibilities. In the arrangements for these courses, social and recreational needs have been considered, as well as the provision of adequate facilities for the work of the classes. I hope that the opportunities offered for improvement and advancement will be widely used and enjoyed by teachers this summer.

George A. Drew

Minister of Education.

TORONTO, March 1, 1947.

Art and Crafts

ELEMENTARY

To this course may be admitted an applicant who holds a certificate qualifying him to teach in the schools of the Ontario Provincial system.

To enrol in this course no previous special training in art or crafts is necessary.

The course is offered so that teachers may have a broad survey of art and crafts activities in relation to general education. It will aid prospective specialists in art and crafts work to discover their particular abilities and in the future to select courses leading to the advanced certificates. Rural teachers or those seeking a refresher course will find this course particularly valuable.

Those enrolled will have a wide choice of the activities offered and thus the individual needs of the teachers, both personal and geographical, will receive attention.

Students will complete several examples of art and crafts work, while the integration of this work with other areas of school activity will be stressed. Discussions of contemporary thought in philosophy, psychology and pedagogy connected with art and crafts will be held for those who are interested. Outstanding specialists in various fields of design will lecture on their particular fields, while the core work of the course will be guided by teachers who have had outstanding success in integrative teaching related to art and crafts in the ordinary classroom situation.

A teacher who, in the opinion of the staff of the summer course, shows sufficient understanding of, and proficiency in the use of art and crafts work in general education will be granted an Interim Elementary Art and Crafts Certificate.

For the purposes of the regulations of the Department of Education, this certificate is considered the equivalent of the Interim Elementary Art Certificate.

INTERMEDIATE

To this course may be admitted an applicant who holds the Elementary Art and Crafts Certificate or the Elementary Art Certificate.

Teachers will continue to explore the various media and techniques with which they dealt in the elementary course. Some specialization in both art and crafts will be expected and artists and craftsmen will assist teachers to achieve greater proficiency in their chosen work. Those enrolled in this course are advised to attend a series of lectures dealing either with recent developments related to art teaching or with trends connected with design.

For the purposes of the regulations of the Department of Education, the Interim Intermediate Art and Crafts Certificate is considered the equivalent of the Interim Intermediate Art Certificate.

SUPERVISOR'S

To this course may be admitted an applicant who holds the Intermediate Art and Crafts Certificate or the Intermediate Art Certificate.

The aim of this course is to assist teachers in the selection and utilization of all types of Audio-Visual aids. Practice in the evaluation of the various kinds of Audio-Visual instructional material will be given. It is planned to give considerable prominence to the workshop technique, with units in filmstrips, film evaluation, radio and recordings, lesson plan preparation and utilization of Museum resources. Training in the operation of various types of projectors will be provided.

Those enrolled will have an opportunity to become thoroughly familiar with the films and slides available from the Visual Education Branch, and should acquire a good appreciation of recent developments and trends in the utilization of Audio-Visual Aids.

Because of limited accommodation, the Department reserves the right to limit the enrolment in this course. An Audio-Visual Aids Certificate will be granted upon successful completion of the course.
